

JESSICA TOWNSEND

jessicaat123@gmail.com // jessicatownsend.net

SUMMARY

Full-stack web developer with five years of experience shipping production applications across WordPress, Shopify, and modern JavaScript stacks, recently focused on integrating AI agents into development and content workflows.

EXPERIENCE

Thought & Expression Co. // (Remote)

Full-Stack Developer - September 2022 to Present

- Build and maintain an in-house Next.js dashboard to consolidate and analyze data from multiple sources
- Develop custom Shopify Liquid themes and configure apps to facilitate third-party GraphQL integrations
- Develop and maintain custom WordPress themes, plugins, and React-based blocks
- Design and implement AI workflows using Claude Code, including custom skills and CMS integrations for Shopify and WordPress
- Identify company needs and independently scope, plan, and ship production-ready solutions as one of two developers on the team

SFP // Lafayette, IN (Hybrid)

Web Developer - May 2021 to Sep 2022

Web Development Intern - Jan 2020 to May 2021

- Built and maintained standards-compliant websites and applications across a range of industries
- Collaborated with clients, PMs, and designers
- Trained interns and new hires on dev standards
- Quoted front-end and back-end work for new projects
